*News Notes, established to help keep our Users and others who have had a connection with us up-to-date on activities, events, capabilities, and interesting results, including short summaries of the work of users.*

*If you receive this message directly, you are on our external address list. If you want to receive the Notes, you need to do nothing. If you would like to be removed from the list, please respond by email to [terry.law@pnl.gov](mailto:terry.law@pnl.gov). If this message has been forwarded to you, please contact Terry if you want to be added to the email list.*

This issue includes:

- **Users Meeting Registration Form Electronic Snafu**
- **Tutorial Nearly Full**

**Registration Form Electronic Snafu**

Last week we learned that registration forms for the Users Meeting that were completed and submitted electronically via our web site were lost in a black hole if they were submitted between June 18 and June 30. If you submitted your form over the internet during that time period, you will need to resubmit your registration. If you are unsure of the timeframe for your electronic submittal, err on the safe side and submit it again. Duplicate entries will be corrected when the data is entered into our spreadsheet. Forms mailed or sent by FAX to the lab were not affected.

**Surface Tutorial Nearly Full**

We are very pleased at the response to the tutorial on surface analysis methods. We are nearly at capacity for the room! If you want to attend this tutorial, you need to submit your registration ASAP.

**I&PS Contacts**

I&PS Associate Director (Chuck Peden [chuck.peden@pnl.gov](mailto:chuck.peden@pnl.gov) and Don Baer [don.baer@pnl.gov](mailto:don.baer@pnl.gov))
